

A Deck-Over Trailer For Hay, Straw, Machinery, Equipment & Supplies!

Donations can also be made through PayPal at www.happytrailsfarm.org!

Many caring people have been wanting to donate hay and straw to the sanctuary, but our challenge has been the fact that we have had *no way to haul it!*

So instead of paying for hay (we normally pay \$4 per bale), we decided to purchase a deck-over trailer to haul all the donated hay. The trailer will also come in handy when we pick up supplies, have to move farm equipment or machinery, or have donations of larger items such as fencing or gates.

After much research and many days of looking at used trailers, we wisely made a choice based on safety and value, and opted to go with a new trailer that came with a guarantee from Appalachian Trailers (*the very best buy we could find!*).

The trailer itself cost \$4,787, add a \$75 pintle/ball hitch and \$100 worth of tie-down ratchet straps for a grand

total of \$4,962.

We would have about spent this amount in hay over a period of about twelve weeks.

We are very respectfully asking your help toward our trailer and hay/straw fund!

Every little bit will help pay off the trailer and in turn will help us keep the horses and other rescued farm animals in hay and straw!

Please consider making a tax-deductible donation today!

I want to help Happy Trails with the purchase of the trailer to provide hay for the rescued animals!

Please use this donation of _____ toward the purchase of the trailer needed to haul hay, straw, supplies, farm machinery and other equipment.
