

Donate Vegetable Oil To Happy Trails!

Vegetable oil is often added to the grain of underweight horses and other rescued farm animals to add calories safely to their diet.

For horses, vegetable oil promotes a healthy coat and skin and encourages good gut health.

For draft horses, vegetable oil helps prevent EPSM, a muscle-wasting disease common in larger breeds of equine.

Donations of vegetable oil may be dropped off at the sanctuary at any time and left in the wooden bins in front of the office. If you would like a thank you letter and tax receipt, please leave your contact information taped to your donation.

You may also wish to send tax-deductible monetary donations to be used toward the purchase of vegetable oil or other joint supplements and fat additives to:

Happy Trails Farm Animal Sanctuary
